EDUCATION

McGill University | Montreal, QC, Canada

September 2021 - August 2025

B.A. in Computer Science with minor in Statistics

- **Leadership Roles:** VP IT, SRI McGill; Volunteer, Care Through Tech; Captain, intramural soccer and volleyball
- **Relevant Courses:** Database Systems, Software Design, Data Science, Machine Learning, NLP

SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, C++, SQL, R, HTML/CSS

Frameworks & Tools: React, Next.js, Flask, Spring boot, MySQL, Docker, AWS, Bash, Git, GitHub Actions, Claude

Libraries: NumPy, Pandas, PyTorch, TensorFlow, Scikit-learn, Selenium, Matplotlib, JUnit

EXPERIENCE

Web Developer and SEO specialist

June 2026 - Present

ATS Containers | Montreal, QC, Canada

- Developed and optimized responsive, high-performance web experiences across desktop, tablet, and mobile devices, reducing page load times by **40%** and improving Core Web Vitals scores by **35%**.
- Led technical SEO and AI search optimization initiatives, increasing organic traffic by **30%** and generating **15% more qualified leads** through improved visibility in search engines and AI-generated search results.

Production Tech Support

Oct 2025 - May 2026

Alorica | Montreal, QC, Canada

- Developed, enhanced, and maintained **Java-based enterprise applications**, implementing new features, troubleshooting issues, and optimizing application performance using **Java, SQL, and Linux** while supporting business-critical systems with **99%+ uptime**.
- Managed application deployments and production releases, leveraging **Bash and Python scripting** to automate operational tasks and ensure reliable server updates, reducing recurring issues by **30%**.

Web Developer

Apr 2022 - Apr 2025

McGill University | Montreal, QC, Canada

- Revamped **2,000+ webpages** using WCAG accessibility standards and responsive design, improving usability and cross-device performance.
- Led end-to-end website redesign, increasing user engagement by **350%** (15K → 65K monthly users) through improved UI/UX, information architecture, navigation, and SEO optimization.
- Led the migration of a large-scale web platform from **JavaScript to TypeScript**, improving type safety, reducing runtime errors, and accelerating development through stronger code quality and maintainability.
- Optimized application architecture, build processes, and frontend assets, reducing build size by **20%**, while improving Lighthouse performance scores and delivering a faster user experience.

PROJECTS

CampusVibe <https://github.com/ArpanSaha07/campus-vibe>

- Built a campus events management web app with **Next.js + TypeScript + Tailwind CSS** frontend (deployed on **Vercel**) and **Java Spring Boot** backend (deployed on **AWS Elastic Beanstalk**).
- Implemented **Spring Security + OAuth**, managed database schemas with **PostgreSQL + Flyway** on **AWS RDS**.
- Integrated **AWS S3** for storage; **Dockerized** deployment and automated CI/CD pipelines with **GitHub Actions**.
- Leveraged **GitHub Copilot** and **Claude** to accelerate development, resolve issues, and enhance code quality.

FITnFLEX <https://github.com/visnunathan8/FITnFLEX>

- Created a wellness app to track fitness, meditation, and dietary habits with real-time feedback.
- Integrated **Angular, Flask, MySQL, OpenCV** and **Google OAuth** for a seamless user experience.

SignLingo <https://github.com/abrarfuad27/SignLingo>

- Developed interactive Sign Language learning app using **React, Flask, SQLite, Pandas, TensorFlow, Docker**.
- Implemented hand gesture recognition using CNNs, with real-time practice sets and feedback. Developed during McGill AI Hackathon 2023.
