EDUCATION

McGill University | Montreal, QC, Canada

September 2021 - August 2025

B.A. in Computer Science with minor in Statistics

- **Leadership Roles:** VP IT, SRI McGill; Volunteer, Care Through Tech; Captain, intramural soccer and volleyball
- **Relevant Courses:** Database Systems, Software Design, Data Science, Machine Learning, NLP

SKILLS

Programming Languages: Python, Java, JavaScript, TypeScript, C++, R, HTML/CSS, SQL

Frameworks & Tools: React, Next.js, Flask, Spring boot, MySQL, Docker, AWS (EC2, S3), Bash, Git, GitHub Actions

Libraries: NumPy, Pandas, PyTorch, TensorFlow, Scikit-learn, Selenium, Matplotlib, JUnit

EXPERIENCE

Production Tech Support

Oct 2025 - Present

Alorica | Montreal, QC, Canada

- Provided **production support for critical applications** by troubleshooting incidents, analyzing logs, and resolving issues using **SQL, Bash, Python, and Linux commands**, maintaining **99%+** system uptime.
- Monitored and triaged tickets via **ServiceNow**, performed root cause analysis, and implemented fixes and automation scripts, reducing recurring incidents by **30%** and improving operational efficiency.

Web Developer

Apr 2022 - Apr 2025

McGill University HR | Montreal, QC, Canada

- Revamped **2,000+ webpages** using WCAG accessibility standards and responsive design, improving usability and cross-device performance.
- Led end-to-end website redesign, increasing user engagement by **350%** (15K → 65K monthly users) through improved UI/UX, information architecture, navigation, and SEO optimization.
- Built and maintained **real-time analytics dashboards** in Google Analytics to track SEO performance and optimize Google PageSpeed scores.
- Developed a **Selenium-based automation tool** to detect accessibility issues and provide actionable recommendations directly on webpages.
- Designed UI and visual assets using **Canva** and collaborated with cross-functional teams, presenting solutions and delivering scalable web experiences that strengthened branding and improved content clarity.

ML Research Assistant

Dec 2022 - April 2023

McGill University | Montreal, QC, Canada

- Developed **convolutional neural network** model to segment medical images in soft-tissue sarcoma research.
- Collaborated with Dr. James Tsui to develop and evaluate ML models to optimize radiotherapy treatment.

PROJECTS

CampusVibe <https://github.com/ArpanSaha07/campus-vibe>

- Built a campus events management web app with **Next.js + TypeScript + Tailwind CSS + Turbopack** frontend (deployed on **Vercel**) and **Java Spring Boot** backend (deployed on **AWS Elastic Beanstalk**).
- Implemented **Spring Security + OAuth**, managed database schemas with **PostgreSQL + Flyway** on **AWS RDS**.
- Integrated **AWS S3** for media storage; tested with **JUnit, Mockito**, and **Playwright**.
- **Dockerized** deployment and automated CI/CD pipelines with **GitHub Actions**.
- Leveraged **GitHub Copilot** and **Claude** to accelerate development, resolve issues, and enhance code quality.

FITnFLEX <https://github.com/visnunathan8/FITnFLEX>

- Created a wellness app to track fitness, meditation, and dietary habits with real-time feedback.
- Integrated **Angular, Flask, MySQL, OpenCV** and **Google OAuth** for a seamless user experience.

SignLingo <https://github.com/abrarfuad27/SignLingo>

- Developed interactive Sign Language learning app using **React, Flask, SQLite, Pandas, TensorFlow, Docker**.
- Implemented hand gesture recognition using CNNs, with real-time practice sets and feedback. Developed during McGill AI Hackathon 2023.
